DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Double Patenting

2. Claim 2 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 1. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2855

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Metzger et al (US 5071259).

Regarding claims 1-9 Metzger et al teaches that a pedestal 39 including a base plate part (fig. 1) which comes into contact with the installation position 11 24 , and supporting parts 23 which support the case 17 is used; that the base plate 32 part of the pedestal is attached to the installation position 11 24 ; that the case is fixed to the supporting parts of the pedestal; and that a heat-insulating structure 30 41 12 is interposed between the case 17 and the base plate part of the pedestal 39 (fig. 1).
